ENTER

In recent years, the percentage of young people who are not engaged in education, employment or training has shown a significant increase in many European countries.

ENTER focuses on innovation and adaptation where young people are encouraged to try new ideas in an open environment.

The Project focuses on the needs of the local communities, moving the participants of the project and other stakeholders to a more active role.

Projects objectives

1. Developing digital skills & competences (3D Design & Printing) for young NEETs with or without disabilities
2. Developing social entrepreneurial skills & mindset for young NEETs
3. The Design & support of a “Social & Entrepreneurial Digital Hub”
4. Increasing the employability of young NEETs with or without disabilities

Project Results

R1 and R2 The consortium invites young people, to participate in the Webinars about digital technologies (3D Design and 3D Printing) and Social Entrepreneurial mindset.

R3 is an e-learning platform with all the educational material produced during webinars.

R4 the Social Entrepreneurial Digital Hub allows participants to connect, communicate, engage and collaborate.
